Artist Madrid Books Newest Title *On Brighter Days*

***On Brighter Days*, is a new children's book by Columbia, S.C. author, Kyla Saphir that highlights the love of families with only children.**

On Brighter Days focuses on only children and their feelings about wanting a sibling but ultimately realizing how lucky they are to be in a small loving family. It is pretty universal that children ask for things they want but that may not be possible (a puppy, a new toy, or a sibling). This book highlights the importance of appreciating all the wonderful things that children do have in their families, no matter the size. *On Brighter Days* hopes to highlight the love of families with only children and share their stories!

For Ages 3+. Available in paperback in May 2022. ISBN: 979-8-9857541-5-5

Available online at <https://artistmadridbooks.com/shop/>

Author Bio

Kyla Saphir is a mother, yoga instructor, early childhood educator, and now the author of the new children's book *On Brighter Days*. She lives in Columbia, South Carolina with her husband, daughter, and their dog, Nia.

The inspiration for the book, *On Brighter Days*, came from Kyla's personal experience with secondary infertility. Kyla is the youngest of five children and wanted her daughter to have siblings as well but was not able to make that happen. When she looked for books for her daughter to read about their experience, the bookshelves were empty. Kyla is passionate about high quality children's literature and so she and her daughter decided to write their own book addressing these feelings for other parents and only children.

When not busy writing and hanging with her family, Kyla loves to read, practice yoga, walk with Nia, and play in her garden.

Book Review

"Every family is different and *On Brighter Days* is a beautiful portrait of what it can look like with one very loved child-even if that wasn't the plan initially." -Jess Myhre, creator of Only You Podcast
